Video Conference customization:

docker-compose down
./scripts/image_build.sh bigbluebutton/greenlight release-v2
docker-compose up -d

Change welcome
cd greenlight
docker-compose down
ls
cd app
cd views
ls
cd main
nano index.html.erb
cd /greenlight (come to this path)

cd config
cd locales
ls
 nano en.yml
      ctrl+w seraph the word about below only welcome to bigbluebutton will be there we can change that one
Save the file
Come to green ight path
**now we have to compile and run

./scripts/image_build.sh bigbluebutton/greenlight release-v2

**after we need to up the green light
docker-compose up -d
